- ZeroFrame design

Visual

- AMD® FreeSync™ Premium technology
- Rapid 200Hz refresh rate
- VESA DisplayHDR™ 400
- 1ms VRB
- DCI-P3 93%
- Black boost technology

Protective comfort

- Acer Flicker-less
- Acer BlueLightShield™
- Acer ComfyView display

UltraWide FHD resolution

XZ6 series brings users into a perfect colorful world with UWFHD 2560x1080, and provides the finest natural and sharp original quality with VA panel and 100,000,000:1 contrast ratio.

VESA certified Display HDR 400

DisplayHDR 400 requires only 400 nits and can also deliver the adjustment of full color gamut. VESA certified Display HDR 400 shows colors as they truly are.

AMD® FreeSync™ Premium technology

Get a seamless, tear-free gaming experience and smooth, responsive visuals with this AMD® FreeSync™ Premium technology monitor.

1ms Visual Response Boost™

1ms Visual Response Boost™ (VRB), works by either quickly turning off the backlight or inserting a blank, black image between frames aka "blinking". This results in less noticeable blur in fast moving images because the liquid crystals don't have to double up on frames as they rise and fall.

About Acer

Established in 1976, Acer is an information and communication technology company dedicated to the research, design, marketing, sale and support of innovative products that enhance people's lives. Acer's green supply chain delivers environmentally friendly PCs, displays, projectors, servers, tablets and smartphones — tools our customers need to explore beyond limits and experience more. Ranked No. 3 for notebooks globally (IDC 2012), Acer employs 8,000 people, and 2011 revenues reached US\$15.7 billion. Please visit www.acer.com for more information.
