

TX-32P

LED 

A 32" display with precise 10-point projected capacitive touch technology, and a sturdy exterior with reinforced glass ideal for high-traffic settings.

With a focus on providing a seamless touch experience, the TX-32P incorporates projected capacitive touch technology which allows accurate 10-point touch capabilities, including responsiveness to gloves, in landscape or portrait orientations. Complemented by a durable metal exterior with strengthened anti-fingerprint glass it's an optimal display for enhancing interactivity in high-traffic areas.
