FUJITSU

Data sheet
Clean Desk Justice 2.0: The innovative FUJITSU Workplace solution for paperless work and collaboration
Efficient and ergonomic working in the modern office environment

The FUJITSU workplace of the future is a new workplace concept that combines modern working methods with ergonomics. The Clean Desk was developed in cooperation with the leading institute for workspace design, the Fraunhofer Institute. Based on the Clean Desk, a special workplace has been designed for the legal profession to reflect the trend toward digitization and the replacement of paper based work. This solution has been tailored precisely to suit legal processes and smart variability for all kind of on side collaboration. Furthermore, the Clean Desk combines an identical designed touchscreen and standard screen and ensures pull mechanism for tablet usage scenario. In addition, the Green IT concept, which is a hallmark of the entire Fujitsu portfolio, is reflected in the Clean Desk. The complete system can be shut down and does not use any power (0 watt) when it is switched off.

Attractive workplace
The Clean Desk represents a fully digital office without the clutter associated with messy cables and excessive paper.
- An attractive design combined with a very well-organized layout of the components
- The universal docking concept with just one connection cable enables optimum working

Ergonomics
The workplace adapts to the user — not the other way round.
- The HAWORTH® table is infinitely adjustable in height
- Thanks to the special eJustice monitor arms from adapt®, displays can be adapted flexibly to suit any application, e.g. using a touch-based display to make editing of electronic documents simpler

Customization of workplace groups
The modular design of the entire workplace allows for a customized group design.
- Customized configuration: table, docking station and display arms
- Supports all FUJITSU end devices
- Supports all FUJITSU Displays

Eco friendliness
The entire solution is part of the Fujitsu Green IT concept.
- The complete workplace can be fully powered down with one switch
- Presence sensor: The presence sensor automatically detects when the user is not present and switches to power-saving mode

Best manageability and maximum security
Always have control over your device and your data.
- Optional integrated fingerprint sensor, smart card reader, contactless NFC-based smart card, TPM, Intel® vPro™ technology, encrypted drives and a slot for a Kensington® lock

FUJITSU

Components

The FUJITSU Clean Desk is a modular system. This means that you can customize your personal Clean Desk to suit your requirements. To achieve this, Fujitsu relies on close collaboration with adapt®, EVOline® and HAWORTH® – partners that all stand for maximum ergonomics in the workplace.

The table below shows an example of a legal workplace configuration. The choice of end devices takes into account day-to-day work with electronic documents. Our team of consultants will be happy to assist you in designing your ideal workplace.

Component	Order No.	Benefits
Client computing devices options		
■ FUJITSU mobiles and tablets (portable)	Various	■ Office tablets, mobiles and desktops featuring the latest-generation Intel® processors and the best service options (e.g. replaceable battery)
■ FUJITSU ESPRIMO PC`s	Various	
		■ Optimized for clean desk/shared desk usage
Display Combination Touch*		
■ 1x FUJITSU Display E24-9 Touch AND	S26361-K1644-V160	■ Two monitors for the ergonomic display of multiple applications (e.g. electronic documents/email inbox and specialist applications)
■ 1x FUJITSU Display B24-9 TS	S26361-K1643-V160	
		■ The touch functionality enables the user to edit electronic documents in a modern fashion, just as if they were working on paper (highlighting, adding sticky notes, etc.)
■ 1x FUJITSU Display E24-9 Touch AND	S26361-K1644-V160	
■ 1x FUJITSU Display B24-9 TS, w/o stand	S26361-K1643-V170	
		■ Easy electronic note-taking with the digital pen from the STYLISTIC series
Peripherals		
■ FUJITSU Wireless Set LX901	S26381-K565-L4**	■ Wireless and ergonomic mouse/keyboard combination
■ FUJITSU Wireless Set LX390	S26381-K590-L4**	■ Wireless and ergonomic mouse/keyboard combination
Docking station		
■ Workplace Connect Kit 2.0	BDL:F6055L720-DE	■ All relevant PC connections are integrated into a power strip on the table, creating a tidy and efficient workplace
■ Innovative power strip with an integrated port replicator		
		■ The entire Clean Desk can be powered down using one switch
■ USB-A to USB-C Adapter (1 piece per order / **Connects previous Notebooks with USB-C peripherals**)	S26391-F6058-L102	■ The computer is connected to the Clean Desk using a single USB 3.0 cable
■ USB-A to USB-C Adapter (20 pieces in one box / (**Connects previous Notebooks with USB-C peripherals**)	S26391-F6058-L122	■ A real Clean Desk: On leaving the workplace and disconnecting the computer, no cables are left on the work surface
Monitor arms		
■ Double Judiciary Display Holder, mini clamp	S26391-F6056-L122	■ The exclusive eJustice SpaceArm allows the position of the monitors to be adapted to the user
■ Double Judiciary Display Holder, grommet mount	S26391-F6056-L123	
		■ A real Clean Desk: No monitor stands on the table – more space for ergonomic working
		■ Numerous configuration options: Horizontal and vertical, tablet mode
Table		
■ HAWORTH® model variants		■ Infinitely height adjustable for maximum ergonomics

*This only shows the combination of a Touch Display with a standard Display, which fit together. Displays of the same type can of course always be bundled.

FUJITSU

Fujitsu products, solutions & services

In addition to the Clean Desk, Fujitsu offers a wide-ranging IT portfolio.

Products

http://www.fujitsu.com/fts/products/

- Storage systems: ETERNUS®
- Servers: PRIMERGY®, PRIMEQUEST®, FUJITSU SPARC® M10, BS2000®/OSD Mainframe
- Client computing: LIFEBOOK®, STYLISTIC®, ESPRIMO®, FUTRO®, CELSIUS®
- Peripherals: displays, accessories
- Software
- Network

We recommend Product Support Services with various Service Level Agreements that protect each product and ensure smooth IT operations.

Solutions

http://www.fujitsu.com/fts/solutions/

Fujitsu's solutions are a combination of reliable products, excellent services, in-depth expertise and worldwide partnerships. They cover one or more areas (e. g. planning, implementation, support, management and training services) and have been developed for specific business requirements.

Infrastructure solutions are offers where our best products, services and technologies are merged with those of our partners in order to generate business benefits for our customers.

Branch solutions are specifically tailor-made to meet the individual requirements of each branch.

Business and technology solutions offer a large number of solutions for a wide range of branches that handle corporate problems such as security and sustainability.

Services

http://www.fujitsu.com/fts/services/

Various adaptable offers ensure that the IT solutions deliver considerable benefits and real business value. We use our comprehensive experience in managing complex IT transformation programs in order to support the customer in planning, providing and delivering IT services in a highly demanding and changing business environment.

Application Services support the development, integration, test, provision and administration of tailor-made and standard applications. The services enable companies to improve their business operations and productivity.

Business Services is aimed at the challenges involved in planning, providing and operating IT in a complex and changing IT environment.

Managed Infrastructure Services enable customers to implement an IT environment which meets their requirements: a high degree of IT service quality and service for data centers and end-user applications.

Fujitsu Green Policy Innovation

http://www.fujitsu.com/fts/about/fts/environment-care/ - Fujitsu Green Policy Innovation is our worldwide project for reducing burdens on the environmental. Using our global know-how, we aim to resolve issues of environmental energy efficiency through IT.

Green Policy Innovation

---

* General hints for the Clean Desk 1.0 Justice Infrastructure:
Displays of the same type can always be bundled together without the fear of incompatible displays. The standard gas springs of the Adapt Monitor Arms are suitable to all Displays in the Fujitsu Portfolio up to 27 inches.
