Work or play the HQ272PPB 2K 27" monitor promises superior picture performance without breaking the bank.

Thanks to a Quad HD resolution, coupled with display enhancing technologies ensuring super wide viewing angles, impressive clarity and true colour, you can enjoy a high quality visual experience for demanding graphic applications every time. The stylish desktop design boasts a contemporary stand with practical tilt ability. Or you can wall mount for eye level compu-

ting, freeing up valuable desk space or complimenting minimal interior design. A host of connectivity options ensure seamless hook up with modern PC and AV equipment.

A complete AV package, twin built-in stereo speakers deliver quality audio for your music, movies, games and for video conferencing, or why not plug in headphones and pump up the volume.
