

Sharp 8M-B32C1
LCD 32" 8K Professional Display

Datasheet

See everything with absolute clarity.

Deliver exceptional colour grading with 8K clarity and brightness in a 32" HDR Colour Management Monitor.

The 8M-B32C1 32 inch 8K IGZO LCD monitor adds a whole new category to Sharp/NEC's range of 8K professional displays as it is the only 8K 32 inch HDR Colour Management monitor with 1000 cd/m² peak brightness. This highly innovative display gives you absolute confidence that you are always seeing the true picture. So it is the perfect choice for professional applications and content creators in photography, broadcasting, post production, imaging, medical education, CAD studio, defence, gaming production environments and more that demand supreme colour accuracy and image quality.

Benefits

Clear like no other - positioned at the leading edge of professional colour management display performance.

Simply more life-like - the displays come with a wide colour gamut showing every colour with much greater accuracy.

Exceptional colour uniformity - Sharp's advanced Uniform Colour Calibration Technology (UCCT) and separate Look-Up-Tables (LUT) ensure a consistent level of clarity.

Creative perfection and image accuracy - advanced colour and image management settings included.

Superior realism and clarity - the full array backlight system analyses the source content of images and adapts areas to be brighter or darker.
