27''(27" viewable) LCD Monitor with WQHD 2560 x 1440 Resolution

ViewSonic®
See the difference™

VX2778-smhd

The ViewSonic® VX2778-smhd is a 27" WQHD LCD monitor with 2560x1440 resolution and SuperClear® IPS Panel technology. This monitor offers best-in-class screen performance with ultra-wide viewing angles and dual speakers. Combined with a sleek edge to edge frameless design, it delivers an immersive viewing experience for home entertainment and multimedia applications. The boarderless design of this monitor makes it perfect for nearly seamless multi-screen setups. HDMI, VGA, and Display Port inputs deliver flexible connectivity options for both computing and gaming environments, while with a Hotkey can quick boosting pre-calibrated game mode. In addition, Flicker-Free technology and Blue Light Filter help to minimize eye strain from extended viewing periods.

Enjoy More with WQHD 2560 x 1440 Resolution

Embrace delicate details and expansive content whether you are at work or relaxing at home.

SuperClear: Stunning colour Performance & Wide-angle Viewing

With SuperClear IPS panel technology, enjoy accurate and vivid colours with consistent levels of brightness whether you are looking at the screen from above, below, the front, or the side.

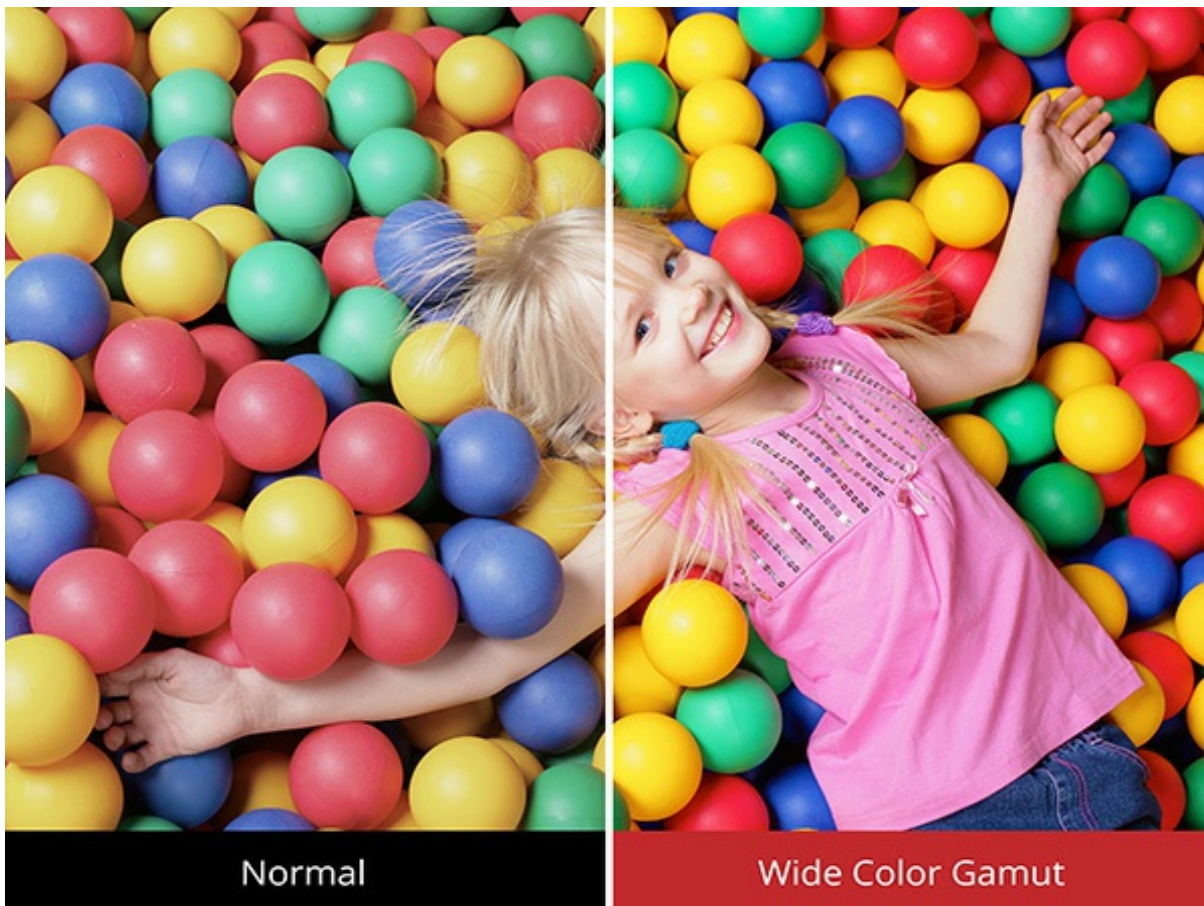

See without Borders

A thin 1.6 mm bezel makes viewing more effortless while you work and play.

1.6mm

Richer Colors and Sharper Images

Exceptional sRGB 100% color coverage produces vivid colors and pure saturation.

Normal | Wide Color Gamut

Flexible connectivity

HDMI, DisplayPort and Mini DisplayPort inputs, enable users to connect to game consoles, Blu-ray players, digital cameras, laptops, satellite boxes, and other high-definition devices.

HDMI   DisplayPort   VGA

Game Mode Hotkey and User-customized Settings

A Game Mode hotkey opens pre-calibrated FPS 1, FPS 2, RTS, and MOBA settings that deliver the best blend of color and technology for specific gaming scenarios. In addition, customizable "GAMER" settings provide individual user preferences for specific games.

Low Input Lag

When the action on the battlefield gets intense, you need a monitor that can process every command from the keyboard, mouse, or controller as soon as they occur. With a built-in process reducer, this monitor does just that – decreasing the delay between all inputs, and allowing you to react in real time against any competitor.

Enhanced Viewing Comfort

Flicker-Free technology and a Blue Light Filter help to eliminate eye strain from extended viewing periods.

Flicker   Eye-care Technology   Blue Light

ViewMode: Intuitive Settings

ViewSonic's unique ViewMode feature offers "Game," "Movie," "Web," "Text," and "Mono" presets. These presets enhance gamma curve, color temperature, contrast, and brightness to deliver an optimized viewing experience for different screen applications.
